Front-End Web Developer

Skills

| HTML5 | CSS3 | JavaScript | React.js | Responsive Design | UI/UX Design | Appwrite

Projects

Blog Leaf

- A full-featured **responsive** blog-posting website using **React.js**, **Redux Toolkit** for state management, and **Appwrite** for backend integration.
- Implemented search functionality, user authentication, and a dynamic content editor using TinyMCE and **React Hook Form** for efficient form handling and validation.
- **View Live:** <https://blog-leaf.vercel.app/>

Spotify Clone (Cover Page)

- A **responsive** music playback cover page utilizing **JavaScript** for interactive song playback and event handling, enhancing user interaction and experience.
- **View Live:** <http://spotifyclonebyrk.freewebhostmost.com/>

Netflix Clone (Cover Page)

- A **responsive** replica of Netflix's cover page, showcasing **UI/UX design** with a visually appealing and user-friendly interface using **HTML5** and **CSS3**.

Education

Air University, Multan, Pakistan

- Bachelor in Software Engineering (**IN-Progress**)

2022 - Expected 2026

Core Competencies

Communication

- Ability to explain technical details clearly to non-technical stakeholders, collaborate effectively with team members, and communicate design decisions.

Problem Solving

- Strong analytical skills for troubleshooting and optimizing code.

User-Centric Design

- Ability to create intuitive and engaging user interfaces.

Adaptability

- Willingness to quickly learn new tools and frameworks, and effectively adjust to evolving technologies and project requirements.

Collaboration

- **Eager to work effectively with designers, back-end developers, and other stakeholders to achieve project goals and contribute to team success.**
